CHIRUNDU ONE STOP BORDER POST

The One Stop Border Post (OSBP) is where persons, vehicles and goods make a single stop to exit one country and enter another. The Chirundu One Stop Border Post was jointly commissioned by H.E. The President of the Republic of Zimbabwe Cde. R.G. Mugabe and H.E. The President of the Republic of Zambia Rupiya Banda on 5 December 2009. Chirundu has been a major holdup for regional traffic travelling to Zambia, countries to the North and East. Long delays at Chirundu in the past have impeded trade and added heavily to the cost of freight.

The transformation of the Chirundu border post into a one stop border post will result in increased bilateral trade (Zimbabwe/Zambia) and increased regional trade (SADC, COMESA) as traffic will be efficiently cleared with clearance times for trucks being reduced from two to three days to 2 hours. This means that transit times and associated costs will be reduced while transparency will be enhanced. .

The figure bellow illustrates the operational setup of Chirundu One Stop Border Post.
